Introduction

Purpose

This manual contains information on the OEC UroView 2800. It serves as an aid to field service engineers and technicians in locating parts and identifying part numbers. It is not a complete parts list and should not be used as a substitute for a bill of materials.

NOTE: The item numbers on the illustrations may not match the item numbers on the assembly drawings or the item numbers on the Bills of Materials.

Intended Audience

This manual is intended for the properly trained engineer or technician who designs, installs, maintains or calibrates the OEC UroView 2800.

Removing or installing parts should not be attempted by anyone who is not specifically trained by GE OEC Medical Systems, Inc.

How to Use this Manual

This manual is formatted and intened for CD distribution. This manual is organized using navigation screens. Click on the section of interest and then refer to the table of contents on the front page to locate the information you require.

Part Identification Numbering

The part numbers in this manual are in the OEC part numbering configuration except for the generator section. The generator part numbers are provided in bothe OEC and GE configurations.

Manual Revision History

Rev	Dash	Date	Change Description
A	-01	November, 2001	Manufacturing Release
B	-02	February, 2002	Hardware, Remote Generator, and accessories addition
C	-03	November, 2002	Hardware and part changes
